## AUDITORS' STATEMENT

---

We have examined the various accounts of your town officers and believe this to be a correct report of your town affairs.

We have included in the report this year a copy of the Campbell and Connor wills concerning their gifts to the Town of Weathersfield. We have done this because there seems to be a misunderstanding in regard to the purposes for which they were given.

For the past two years it has been requested by several that the names of those receiving aid be published in the annual report. Your auditors would like the sentiment of the voters in regard to this.

## SELECTMEN'S REPORT

---

Heavy floods early last spring started off the town's expenses with a rush. Many roads were severely washed, and the town promptly applied for, and was granted, flood relief. W.P.A. awarded about \$1400 for hand labor, while trucks and materials were furnished by the town. Before government aid was available the town had already spent considerable on repairs which could not be delayed.

The heavy snows of last winter indicated that while our trucks and snow plows were adequate for ordinary storms the equipment was not sufficiently heavy for extraordinary weather. Accordingly the selectmen purchased a more powerful truck and a larger snow plow. Up to the time of this writing there has been no storm big enough to prove the worth of the new outfit. Also, two thousand feet of snow fence was bought, so that now the town owns eight thousand feet. We are accumulating snow fighting equipment and expect soon to be prepared for the severest snow emergencies. Purchasing must be done gradually in order that too great burden is not put upon our taxpayers in any one year.

Despite the increased expenses outlined your officers have economized in other directions and have succeeded in making a slight reduction in the town debt.

1935	9085	4022	13107	12906	201	
1936	9090	4053	13143	13112	31	

### Butterfield Bridge

The heaviest piece of flood damage in our town was to this bridge. The state engineering department estimated the repair bill at about \$2500. Your officers applied for W.P.A. aid which was finally granted in the sum of about \$1800, this being the estimated cost of labor only. The town agreed to supply necessary materials and trucks, estimated at about \$700. The work was done under supervision of the state bridge engineer.

### Highways

For the first time in many years all roads were under the supervision of one road commissioner. The result of centered control has been extremely beneficial to the town, not only in the work done on town roads but in a financial way as well.

Formerly each road commissioner was paid 35 cents per hour. State law provides that the rate of pay for road commissioners shall be fixed by the selectmen. Acting under this law the selectmen made the pay for our one road commissioner 50 cents per hour, thus effecting a saving to the town. The road commissioner is also allowed gasoline for his personal car when used on town business.

The sum necessary for snow removal fluctuates greatly from year to year, hence it is almost impossible to estimate in advance the sum needed. The town has been in the habit of voting a nominal tax of ten cents for winter work. Any overdraft in the past has been made up by the selectmen from the general funds. This practice may well be continued.

### Highway Financial Report

Voted for summer work	\$3718
Voted for winter work	826
Received from state for hire of town trucks	2302
State aid for winter work	159
State aid on Amsden-Ascutney road	71
	<hr/>
	\$7076
Orders drawn for summer and winter work	7412
	<hr/>
Overdraft	\$ 336

### Unselected Road Money

The sum made available by the state was \$3785. The road from Mayo's corner to Simeon Grow's farm, via Henry Gould's, was rebuilt. Also some improvement was made in the road from the Center to Joseph Morriset's.

### Delinquent Taxes

Our unpaid taxes are entirely out of proportion to the tax levy. Now that times are improving delinquent taxpayers should make sincere efforts to settle arrearages rather than force town officers to the disagreeable necessity of using legal means to collect money justly due the town. It seems hardly fair for some taxpayers to use our roads and our schools without contributing to the expense other than under compulsion.

### Proposed Budget

Your officers recommend that the present tax rate be continued for the coming fiscal year.

General town tax	\$1.35
Town school tax	1.10

## SCHOOL DIRECTORS' REPORT

---

February 1, 1937.

To the Citizens of the Town of Weathersfield:

We are trying once again to place before you the income and expenses of your schools in such a way as to be easily understood and yet comply with the law. It must be recalled that the **School** year runs from July 1st to July 1st, and the **Town** fiscal year goes from February 1st to February 1st.

It is necessary for the School account to record three reports: (1) A report of expenses and income for the previous year; (2) a report showing expenses and income up to February 1st of this year with an estimate of expenses until next July 1st; (3) a budget for next year. Please note that each of these reports goes from July 1st to July 1st. The following tables explain statistically these three accounts.

It will be noted in the accounts that a Sinking Fund has been established. A word of explanation about this fund will perhaps clear up any misunderstanding.

Your school department has a tentative building program to be spread out over the next few years. The first part of this program is to install frost-proof toilets in the Perkinsville school. The plans for this improvement have been submitted by the State Department of Education and the material ordered. On account of unusual delay in securing a Federal project the installation has been held up. The second part of this program involves the Upham school as mentioned in last year's report. The next thing planned is the standardization of the Bow school. Because of reconstruction of the highway additional expense may be incurred in this plan. If the present rate of income for schools is maintained it can almost be assured that these improvements can be made without any additional burden on the taxpayers. That these improvements need to be made can hardly be denied.

During the past year the Ascutney school has been equipped inside with running water and a drinking fountain. It is hoped that in the near future water can be run into the Marsh school.

It will be noted from the report that the Ascutney P.T.A. contributed toward reference books. Many individuals in that neighborhood have donated much material which has been of valuable aid in improving instruction. Their willingness to help has been greatly appreciated.

Several minor repairs are needed in the various schools throughout the town and many interiors and ceilings will need repainting soon. It is desired that our school buildings will provide a place to study for our 210 children of which we need feel no shame. We recommend a school tax of \$1.10 for another year.

Respectfully submitted,

G. E. LOCKWOOD

## OVERSEER'S REPORT

The foregoing account includes an item of \$75.00 paid for Robert F. Rogers, which he agreed to pay, and he has made several promises to do so. An attempt is now being made to collect. It also includes an item of \$39.00, rightfully chargeable to Augustus W. Aldrich. There has been a partial arrangement for the settlement of this account. There are outstanding obligations of this department, not fully completed, which I estimate at \$100.00. No further known obligations except regular current expenses.

Again I appreciate the co-operation of the Selectmen in all matters pertaining to the charity department.

Respectfully submitted,

LUTHER P. HOWE,

Overseer

**THE PORTION OF EDWIN CONNOR'S LAST WILL CONCERNING GIFT TO WEATHERSFIELD**

I give, devise and bequeath to the town of Weathersfield all my estate and property real and personal that shall remain after the decease of my wife and payment of her funeral charges. To hold in trust for the purpose of appropriating the income thereof to aid such indigent children as shall not be chargeable to the town, said fund to be under the direction of the Selectmen of the

town for the time being, or such other agent as the town may appoint for that purpose.

It is my wish that the income aforesaid shall be appropriated to the purchase of clothing and school books and other things for the comfort of needy children.

**PORTION OF RECEIPT GIVEN EXECUTOR AND THAT  
PART OF SAID WILL THAT CONCERNS WEATHERSFIELD**

Windsor, Vt., June 1, 1886

Received of Hiram Harlow, Executor of the last Will of David Richard Campbell, late of said Windsor deceased the sum of Five Thousand Dollars.

I give to the inhabitants and their successors of Weathersfield five thousand dollars.

I desire that the lawful authorities and their successors of said town shall invest and keep safely invested in productive real estate or interest paying securities the amount of their here bequest and use the annual income of the investment in aid and support of the indigent poor and paupers of said town.

## HEALTH OFFICER'S REPORT

---

February 8, 1937

To Selectmen of Town of Weathersfield, Vt.:

I, Jerry C. Laundry, health officer, do hereby submit an annual report for the year ending February 1, 1937.

There were twenty-nine (29) cases of measles; two (2) cases of whooping cough; one (1) case of mumps, and one (1) suicide by drowning.

I also made an annual inspection of all the schools. I find that they are in a fairly good state of sanitation with the exception of the Upham school. There are a few repairs to be made, as heating, lighting and ventilation are very bad.

JERRY C. LAUNDRY,

Health Officer

## REPORT OF CEMETERY COMMISSIONERS

---

The Sherwin cemetery has been cleaned up, all headstones righted, the obsolete footstones removed, etc., the expense taken from the Chapman fund at their request. The yard has been mowed twice the past year, the hay paying the cost.

Extensive improvements have been made at the Bow cemetery. Many of the pine trees removed, etc. Outside of the income from logs sold the cost has been borne by Mrs. Nina K. Taintor, with a few donations from others interested.

## DID YOU KNOW THAT—

Hawks Mt. Grange Hall, formerly a Methodist Church, was 100 years old in August, 1936.

The park at Perkinsville, opposite the post office was started April 13, 1867. It was fenced off with 4x4 wooden rails between soapstone posts at a cost of \$99.42. The trees in the park were also set out at that time. On April 16, 1892, it was decided to replace the wooden rails with the chains now in use and settees were furnished. This cost was borne by citizens. It seems to the writer that the crop of grass in the park at that time must have been much larger than at present, for in looking over an old account book I found where two men were appointed a committee to appraise the grass and sell at their appraisal.

Daily newspapers in this section were scarce during Civil War days. Interested men of Perkinsville pooled their money and subscribed to one Boston Journal, to be left at J. Hammond's tin shop daily, and kept there to be perused by the subscribers. One Rutland Herald was also bought and kept at the same place for that purpose.

In competition with the other towns and cities of the state last year your town received, for the makeup of its annual report, a diploma of superior merit from the State Chamber of Commerce.
